Some lovely snapshots of our students looking relaxed and enjoying themselves in the library at lunchtimes. As you can see there are various activities for the children to do.

Top right: This might not be an indoor activity, however hand tennis is a great inclusive game for students.

Reconciliation Week
Today is National Sorry Day and in class today the students will be talking about the importance of Kevin Rudd’s apology to the Indigenous peoples of this land.

As part of Reconciliation Week activities, you will have received a letter advising of the excursion to Ramsay Place next Tuesday. Only students from Rooms 8, 9 and 10 will be attending as a school. Thank you to those parents who have volunteered to help on this day.

Students in Pre-school as well as Rooms C and D are invited to attend with their parents. Thank you to those who have let front office staff know they will be doing this as it will avoid any unexplained absences being recorded.

Importantly, any students from Pre-school or Room C and D who will not be attending the event at Ramsay Place will be expected to be in school for business as usual.

Kate (our ACEO) will be working with students next week as part of our school based activities and will be engaging the students in storytelling, bracelet making as well as showing the children artefacts.

We welcome you all to next week’s assembly, hosted by Room C where each class will share an item on Reconciliation.

Meetings
We encourage our teachers to talk with parents before school and at the end of the day but would ask you to be mindful that this does not occur in students’ learning time if possible. On occasions, a class teacher will ask you to make an appointment at an alternative time if they have meetings after school to attend.

Premier’s Be Active Challenge
Mr Gaedt has organised for our school to be involved in The Premier’s Be Active Challenge which aims for all students to take part in 60 minutes exercise five times a week. The exercise can take the part of PE lessons, after school sports or even walking the dog! Classes have been encouraged to develop a recording sheet which each student will complete. The more people we actively have involved, the more chance we have for gaining more resources for our school. Please support your child in this initiative. The challenge begins in Week 6.

Basketball posts
By the end of today the basketball posts should be installed in our hard play area. The students have definitely missed playing basketball and were very excited when works began this week. It seems a long time ago now, but I would like to thank everyone involved in the fundraising of this event, particularly our students and previous SRCs.

Lisa
**SUCCESSFUL STUDENTS AWARD**

**Megan** Room C  
For producing wonderful written work for her story writing.

**Fijita**  
For excellence in her story writing in the last 2 weeks.

**Dean** Room D  
For excellent co-operation, leadership and good work.

**Xavier**  
For learning to co-operate and to speak with a quiet voice.

**Kiara** Room 8  
For showing an excellent attitude to learning and coming up with a great design for the 3D printing project.

**Anisha**  
For working persistently in all learning areas.

**Room 9** Room 9  
For helping Mrs. Taylor to settle in to class by being brilliant!

**Amber** Room 10  
For her enthusiasm in spelling and always trying her hardest.

**Nicholas**  
For ignoring distractions and always completing all of his work.

**CONGRATULATIONS TO THESE STUDENTS!**

**LOST PROPERTY**  
As it is coming into winter please be reminded to label all your children’s belongings.

Unnamed items that are found will be placed in the lost property bin located outside front office. Please be aware the bin will be emptied at the end of every term.

Thank You.

**Flinders University Excursion**  
Room 8, Tuesday 23rd May 2017

**Kirsty**  
Flinders Uni was jam packed with excitement and laughter! The scenery was gorgeous. Flinders Uni had loads of decorations which made me feel more comfortable. One of my favourite parts of the day was definitely the cooling gases. It took me a while to comprehend the amazing creation she created! One of the experiments she did was using dish washing liquid and water to make bubbles, she then would pour liquid nitrogen (−196 degrees) in to the bubble concoction and it over flowed!! So COOL! The day was very successful and educational. Thank you Flinders Uni for the best day ever!

**William**  
I really enjoyed the cooling gases lesson because of the experiments we did. My favourite experiment was FIRE because there was a sort of explosions which was AWESOME!! I also enjoyed the Amazing Chase because I got to see a lot of the campus and learn about the university like, the name of the ship the anchor fell off. And my team was first back!! I also liked riding in the bus which was chaos! And last thing I enjoyed to conclude this paragraph is the Law Court. I liked the story about the tile that was misplaced, I also liked the ambassadors.

**Jeremy**  
On Tuesday we went to Flinders University. When we got on the bus we took funny photos they were so funny. We followed the instructor who told us to be quiet because there were people working and studying everywhere. We finally got to the science room. The first experiment was awesome, she put liquid nitrogen in a beaker and it sort of froze then there was only a little bit left so she tipped it on the floor and just when it hit the floor it evaporated!!

**Room 9**  
Elijah and Ethan have both produced a fantastic 3D cube. Each face of the cube has something to do with their family. Well done guys!!
