

2022

Preschool Quality Improvement Plan Summary

Huntfield Heights Preschool

Goals	Challenge of Practice	Success Criteria
<p>To improve the children's ability to use oral language to connect with their world.</p>	<p>If we build on and continue to further develop the children's vocabulary and oral language development then we will see the children's ability to improve their oral language and conversational skills</p>	<p>Children are increasing their oral language. Children are becoming more expressive and using increased vocabulary in their daily conversations. Children are engaging in more conversations with their peers and educators on a daily basis. Evidence from pedagogical documentation demonstrates this.</p>

National Quality Framework Priorities

Key steps

Recognising and creating ways that we can be more sustainable in our new outdoor environment.

Set up a bug hotel in the outdoor setting. Research different types of bug hotels and what this could look like for our preschool. Determine an area where we can consider some planting.

Incorporate more loose parts into our outdoor setting. Particularly the cubby area.

Add some small water sources into the yard space to encourage living creatures to access.
