

Sun Protection policy

This policy applies to all centre activities and events on and off-site.

Rationale

A balance of ultraviolet (UV) radiation exposure is important for health. Too much of the sun's UV radiation can cause sunburn, skin and eye damage and skin cancer. Sun exposure during childhood and adolescence is a major factor in determining future skin cancer risk.

Too little UV radiation from the sun can lead to low vitamin D levels. Vitamin D is essential for healthy bones and muscles, and for general health. Sensible sun protection when UV is 3 and above does not put people at risk of vitamin D deficiency.

Objectives

This sun protection policy has been developed to:

- encourage children and staff to use a combination of sun protection measures whenever the UV Index level reaches 3 and above.
- work towards a safe centre environment that provides shade for children and staff at appropriate times.
- assist children to be responsible for their own sun protection.
- ensure families and new staff are informed of the centre's sun protection policy.

Procedures

Policy implementation times

Staff are encouraged to check the daily sun protection times each morning for our location using the free [SunSmart Global UV app](#), [SunSmart widget](#), myuv.com.au or the [Bureau of Meteorology website](#) to support the implementation of sun protection at the centre.

The centre uses a combination of sun protection measures for all outdoor activities during terms 1, 3 and 4 (or 1 August to 30 April) and whenever UV levels reach 3 and above at other times.

Scheduling

A combination of sun protection measures are considered when planning outdoor activities such as excursions and water-based activities.

Care is taken during the peak UV radiation times, and outdoor activities are scheduled outside of these times, where possible or in the shade.

Sun protection measures

1. Hats

All children and staff are required to wear a broad-brimmed, legionnaire or bucket hat which protects the face, ears, and neck. Baseball caps are not acceptable.

The centre has a limited number of spare hats available for child use.

2. Clothing

Children attending the centre are to wear appropriate sun protective clothing, including tops with higher necklines and elbow-length sleeves and longer-style skirts, dresses and shorts. Rash tops or t-shirts over bathers are recommended for outdoor swimming activities. No singlet or midriff tops are allowed.

3. Sunscreen

- SPF 50+ broad-spectrum, water-resistant sunscreen is supplied by the centre for children and staff use.
- Families with children who have sensitive skin are asked to provide a suitable SPF 50+ broad-spectrum water-resistant sunscreen for their child's use.
- When age-appropriate children are reminded to apply sunscreen under adult supervision.
- Time is provided to apply sunscreen before going outdoors.
- Sunscreen is applied at least 20 minutes before going outdoors.
- Sunscreen is re-applied every 2 hours when remaining or returning outdoors.

4. Shade

- Staff are to use available areas of shade for outdoor activities as much as possible and actively encourage children to play in the shade.
- Children who are not wearing a SunSmart hat or appropriate clothing are asked to play in the shade or return indoors.

5. Staff WH&S and role modelling

For work health and safety and role modelling, when the UV is 3 and above, staff are required to practice SunSmart behaviours including:

- wearing sun protective hats, clothing, and sunglasses when outside
- applying SPF 50+ broad-spectrum, water-resistant sunscreen
- seeking shade whenever possible.

Families and visitors are encouraged to use a combination of sun protection measures when participating in or attending outdoor activities with the centre.

Pride. Responsibility. Integrity. Determination. Equality.

6. Enrolment and information for families

When enrolling their child families are:

- informed of the centre's sun protection policy.
- asked to provide a suitable hat for their child.
- asked to provide their child with suitable outdoor clothing that is cool and covers as much skin as possible.
- required to give permission for staff to apply sunscreen to their child.

7. Learning and development

Sun protection is incorporated into the learning framework and/or planned experiences.

8. Policy promotion

Sun protection information and the sun protection policy is regularly promoted to the whole centre community including staff, volunteers and families through newsletters, the centre website or forum and in enrolment packs.

Policy review

Endorsed by Staff and Governing Council February 2024

Date of next policy review: This policy will be reviewed in February 2027 or as required based on department policy updates and/or advice.

Legislation

This policy relates to the following National Law and Regulations:

Education and Care Services National Law Act 2010

- Section 167 – Protection from harm and hazards

Education and Care Services National Regulations 2011

- Regulation 100 – Risk assessment must be conducted before excursion
- Regulation 113 – Outdoor space–natural environment
- Regulation 114 – Outdoor space–shade
- Regulation 168: Policies and procedures (2)(a)(ii)–sun protection
- Regulation 170 – Policies and procedure to be followed
- Regulation 171 – Policies and procedures to be kept available
- Regulation 172 – Notification of change to policies or procedures.

Work Health and Safety Act 2012

National Quality Standards

All of the following sun protection procedures link to:

- **Quality area 2: Children's health and safety**

There are also links to:

- **Quality area 1: Educational program and practice**
- **Quality area 3: Physical environment**
- **Quality area 5: Relationships with children**
- **Quality area 6: Collaborative partnerships with families and communities**
- **Quality area 7: Governance and leadership.**
